- Winter Sports Trail

The Cadillac Pathway is a high, rolling ridge that runs from east to west, offering 11.3 miles of trail, consisting of 6 loops through hardwood forest. This pathway's most distinctive attribute is elevation, offering thrilling terrain for both mountain bikers and cross-country skiers. "The Friends of Cadillac Pathway" groom the "Classic Cross-Country Trail" weekly during the winter season, ensuring a smooth-packed, single-track trail. Permitted by the DNR for fat bike riding and snowshoeing is the Cadillac Pathway Winter Sports Trail. This winter only trail is indicated on the map below. Dogs are allowed on this trail.
